CAREER OBJECTIVE:

Entry-level Python Full-Stack Developer with hands-on project experience using Python, Flask, PostgreSQL and HTML. Built database-backed web applications for book exchange and task/note management, and worked on an AI/ML internship and an accessibility-focused sign-language project. Seeking an opportunity to contribute to practical software development projects.

EDUCATION:

S.R.K. Institute of Technology | B.Tech, Computer Science & Technology | CGPA: 7.67/10 — Nov 2022 – Apr 2026

Narayana Junior College | Intermediate, MPC | CGPA: 8.3/10 — Jun 2020 – Apr 2022

Sri Chaitanya Techno School | SSC | CGPA: 10/10 — Jun 2019 – Mar 2020

EXPERIENCE:

Full Stack Development Intern — ExcelR Edtech Pvt. Ltd. (with APSCHE) — Jan 2026 – Apr 2026

- Completed a final-year long-term internship in Full Stack Development.
- Gained practical exposure to frontend and backend technologies, databases, APIs, deployment and software development practices.

AI–ML Intern — SmartBridge — May 2025 – Jul 2025

- Worked on internship project activities involving Python development and problem-solving.
- Strengthened programming skills and familiarity with software development practices.

PROJECTS:

Book Exchange Network (Hackathon Project):
Technologies: Python, Flask, PostgreSQL, HTML, CSS

- Built a web application concept for listing, borrowing, lending, donating and exchanging books.
- Worked on user authentication and database-backed book listing and exchange features.

ACK Note List / To-Do Application:
Technologies: Python, Flask, SQLite, HTML, CSS

- Built a responsive task and note management web application.
- Implemented task creation, editing, deletion and completion, with All, Active and Completed filters.

Sign Sense:
Technologies: Python, AI/ML, OpenCV

- Accessibility-focused project exploring sign-language gesture communication.
- Worked with computer vision and machine learning technologies.

TECHNICAL SKILLS:

Programming: Python, HTML
Frameworks & Tools: Flask, GitHub, VS Code
Databases: PostgreSQL
Project Areas: Web Development, AI/ML

ADDITIONAL:

- **CERTIFICATIONS:**

  Code Crafters Django; Generative AI; Programming Essentials in Python (Cisco); JavaScript Essentials 1 (Cisco); The Joy of Computing Using Python (NPTEL); Deep Learning (NPTEL); Python; Deep Learning; Cloud Computing; Node.js; JavaScript (Infosys Springboard)

- **ACTIVITIES & INTERESTS:**

  Activities: 2nd place in Code Clash (2025); participated in coding competitions and hackathons; participated in a Full Stack Django workshop and a Generative AI workshop; participated in a dance competition (2025).
  Interests: Editing, technology, travelling, project development.
