CAREER OBJECTIVE

Aspiring software engineer with hands-on experience in Python, AI/ML, and web development seeking to leverage programming and problem-solving skills to contribute to innovative software solutions.

EDUCATION

S.R.K INSTITUTE OF TECHNOLOGY

Bachelor of Technology | Computer Science & Technology | CGPA: 7.67/10 (UP-TO 4-1)

Nov 2022 – Apr 2026

NARAYANA JUNIOR COLLEGE

Intermediate | MPC | CGPA: 8.3/10

Jun 2020 - Apr 2022

SRI CHAITANYA TECHNO SCHOOL

SSC | CGPA: 10/10

Jun 2019 - Mar 2020

WORK EXPERIENCE

PALOALTO INTERNSHIP AT EDUSKILLS

Jan 2024 - Mar 2024

- I got the opportunity to work on a range of projects and gain practical experience in developing innovative and user-friendly websites. It also helped me to learn best practices on web technologies.

AI – ML INTERNSHIP AT SMART BRIDGE

May 2025 - Jul 2025

- This internship project provided hands-on experience in Python development and problem-solving in a real-world setting. It strengthened my programming skills and expanded my understanding of software development practices.

PROJECTS

TIC-TAC-TOE GAME:

Jun 2024 - Jul 2024

- Tools & Technologies:** Python, IDLE compiler - The objective of this project is to develop a classic Tic-Tac-Toe game, Tic-tac-toe is a simple, two-player, paper-and-pencil game played on a 3X3 grid where players take turns marking X's and O's aiming to get three of their symbols in a row (horizontally, vertical, or diagonally) to win; if all squares are filled without a winner, it's a draw.

Outcome: Developed a Tic-Tac-Toe game in Python, implementing game logic and user interface, resulting in a fully functional interactive application.

Sign Sense-Using Python: (final year project)

Jan 2023 - Feb 2023

- Tools & technologies:** Python, AI and ML, OpenCV and OpenAI – Sign Language is mainly used by deaf and dumb people to exchange information between their own community and with other people. It is a language where people use their hand gestures to communicate as they can't speak or hear.

Outcome: Machine learning achieves sign-to-speech translation by combining real-time computer vision it is used for only Emergency signs like food, doctor, help, water ect.,

ADDITIONAL

- TECHNICAL SKILLS:** Python (Advanced), Java (Intermediate), C (Intermediate); Frameworks: Flask, Django; Tools: MySQL, OpenCV.
- CERTIFICATIONS:** CODE CRAFTERS DJANGO, GENERATIVE AI, Programming Essentials in Python and JavaScript Essential-1 (CISCO), Joy Of Computing Using Python and Deep Learning (NPTEL), Python, Deep Learning, Cloud Computing, Node.js, JavaScript (Infosys Springboard).
- CO-CURRICULAR ACTIVITIES:** Participated in coding competitions, Dance competition in 2k25, Achieved 2nd place in CODE CLASH (2k25), Participated in Hackathons, Participated in Full Stack Django Workshop, Participated in Generative Ai (Gen Ai) Workshop.
- INTERESTS:** Editing, Chess, Travelling.

HACKATHON

Book Exchange Network-Using Python:

Aug 2025 - Aug 2025

- Tools & technologies:** Python, Flask API – It's a platform (web or mobile) where users can share, borrow, lend, donate, or exchange books with others in the network. – Provides secure user authentication with JWT. Built a Book Exchange Network platform using Python and Flask API with JWT-based secure user authentication, enabling users to share and exchange books efficiently.
