CAREER OBJECTIVE

Aspiring software engineer with hands-on experience in Python and web development seeking to leverage programming and problem-solving skills to contribute to innovative software solutions.

EDUCATION

S.R.K INSTITUTE OF TECHNOLOGY

Nov 2022 – Apr 2026

Bachelor of Technology | Computer Science & Technology | CGPA: 7.67/10

NARAYANA JUNIOR COLLEGE

Jun 2020 - Apr 2022

Intermediate | MPC | CGPA: 8.3/10

SRI CHAITANYA TECHNO SCHOOL

Jun 2019 - Mar 2020

SSC | CGPA: 10/10

WORK EXPERIENCE

AI – ML INTERNSHIP AT SMART BRIDGE

May 2025 - Jul 2025

- This internship project provided hands-on experience in Python development and problem-solving in a real-world setting. It strengthened my programming skills and expanded my understanding of software development practices.

Book_Exchange_Network-Using Python:(HACKATHON)

Aug 2025 - Aug 2025

- Tools & technologies: Python, Flask API – It's a platform (web or mobile) where users can share, borrow, lend, donate, or exchange books with others in the network. – Provides secure user authentication with JWT.
A web application designed to help users exchange books through an online platform.
Python, Flask, PostgreSQL, HTML, CSS Book listing, Book exchange, User interaction, Responsive web interface

Full Stack Development — ExcelR (Final-Year Long-Term Internship)

Jan 2026 - Apr 2026

- Successfully completed a long-term internship in Full Stack Development organized by ExcelR Edtech Pvt. Ltd. in collaboration with the Andhra Pradesh State Council of Higher Education (APSCHE).
Gained practical experience in web application development, frontend and backend technologies, databases, APIs, deployment and software development practices.
Full Stack Development Web Development Backend Database

ACADEMIC PROJECTS

Sign Sense-Using Python:

- Tools & technologies: Python, AI and ML, OpenCV and OpenAI – Sign Language is mainly used by deaf and dumb people to exchange information between their own community and with other people. It is a language where people use their hand gestures to communicate as they can't speak or hear.

To-do Application:

- Python, Flask, SQLite, HTML, CSS – A responsive To-Do and Note List web application that allows users to create, edit, complete, and delete tasks. Basically it is a type dairy application where we can add our tasks in the application. Where we can do with this application like Add and manage tasks, Edit and delete notes, Mark tasks as completed, Responsive web interface

ADDITIONAL

- **TECHNICAL SKILLS:** Python, HTML, Flask, PostgreSQL, GitHub, VS Code.
- **CERTIFICATIONS:** CODE CRAFTERS DJANGO, GENERATIVE AI, Programming Essentials in Python and JavaScript Essential-1 (CISCO), Joy Of Computing Using Python and Deep Learning (NPTEL), Python, Deep Learning, Cloud Computing, Node.js, JavaScript (Infosys Springboard).
- **CO-CURRICULAR ACTIVITIES:** Participated in coding competitions, Dance competition in 2k25, Achieved 2nd place in CODE CLASH (2k25), Participated in Hackathons, Participated in Full Stack Django Workshop, Participated in Generative Ai (Gen Ai) Workshop.
- **INTERESTS:** Editing, Technology, Travelling, Project Building.
